Sir:

This is in response to the "Notice to Comply With Requirements for Patent Applications Containing Nucleotide Sequence and/or Amino Acid Sequence Disclosures," mailed April 30, 2002, concerning errors in the previously submitted computer readable form (CRF) of the Sequence Listing. The Sequence Listing Error Report indicates that the intentionally skipped sequence (SEQ ID NO:35) was not properly formatted.

In accordance with 37 C.F.R. §1.821, submitted herewith please find a substitute computer readable form (CRF) copy and a paper copy of the Sequence Listing. Applicants request entry of same into the specification. For the intentionally skipped sequences, only fields <210> and <400> are utilized. Applicants state that the content of the sequence listing information recorded in computer readable form (CRF) is identical to the paper copy, and that the sequence listing does not contain new matter.

Please charge any additional fees or credit any over-payment to PTO Deposit
Account No. 13-4895.
